MATERIALS AND SERVICES:

The project involves the exterior painting of a residential property with a surface area of 2,500 square feet. The specified color is Oxford grey, and the client requires the application of three coats to ensure optimal coverage and durability. The painting process will commence with thorough surface preparation, including cleaning and priming to ensure adhesion and longevity. High-quality, weather-resistant exterior paint will be utilized, adhering to industry standards for residential exterior finishes. Each coat will be allowed to dry fully before applying the next, ensuring a smooth and uniform finish in compliance with best practices in professional painting.
